CLUB MEETINGS ARE THE SECOND THURSDAY OF EACH MONTH AT THE MISSOURI CITY FIRESTATION FM 2232 at 7:30 pm CDT

MAILING ADDRESS: WD5DRB - L.S. LEVY 1215 KENFOREST DR. MISSOURI CITY TX. 77459

PRESIDENT'S COLUMN -- WADE EILERS---WN5TEN

During August, the officers of the Brazos Valley Amateur Radio Club, with the help of Bob Sprading, W5UBD, incorporated B.V.A.RC. Bob pointed out to us last spring that by incorporating, we would protect the club from many legal hassles. The most important effect of incorporating is that in case some person or persons ever filed a law suit against our club, the only amount he may sue is for is what is in the club treasury. So, if this ever happens, we are all protected. The cost of the Letters of Incorporation to the club was \$25.00, and I think quite well spent. If any of you have questions pertaining to this matter, please give Bob a call cause he is handling this. Bob, thanks for getting this club business done for us.

The Novice Class is held on Friday nights at 7:30 pm at the firestation for the next 6 to 8 weeks. All club members are invited to join us and see how the group is progressing. If you would like to participate in one lesson, code or theory, give me a call and let me know. Also, remind anyone you know having interest in attending the class, it is not too late. Give Larry, WD5DRB, or me a call, or have newcomers meet at the firestation.

73 -- WADE

CD - EC - SKYWARN - RACES-ARES-NETS---ED HARWELL---W5WVX

A few days ago I received a telephone call (long distance no less) from Jeff Parker, WB5VMD, who is presently in Tulsa, Oklahoma. He called me to thank the club, through me, for sending him this newsletter. He has become active in emergency communications and skywarn. As you can imagine, they have plenty to watch out for up there. He sends his greetings to all the gang down here.

At this writing, we have a tropical depression south of Brownsville and a dangerous hurricane in the Atlantic. Whether these storms affect us directly or not is not presently known * but it behooves us all to review the lessons learned from Tropical Storm Claudette and be ready. This time we may not go unscarred.

73 -- ED

* This newsletter is known for its entertainment value, not accuracy of WX reports. HI.

CLUB ACTIVITIES AND SOCIAL EVENTS -- PROGRAM DIRECTOR--DICK--WB5SRN

For those of you who did not attend the August field trip to the Gulf Coast Cable T.V. Co., you missed a very enlightening experience. There were 14/15 members who did attend, and I for one, thourghly enjoyed the visit. Future plans for cable T.V. viewing in the area were discussed. We were given the opportunity to view a monitor of current programming available at present in the Bellaire area.

The Septmber meeting will be equally interesting with a program on "OSCAR" satellite communications. Plan to attend....you may want to branch out with OSCAR.

The scheduled spacecraft communications program has been cancelled. That speaker is moving from the area. It has been suggested that we have a family picnic or pot luck. Anyone having any other suggestions for the October meeting please call me (729-2516) or see me at the next meeting.

The November meeting will be 'Solar Energy', by Dr. John Freeman, Professor of Physics at Rice University. The December meeting will be the election of officers for 1980. ALL MEMBERS ARE EXPECTED---Guests are Most Welcome at ALL Club Functions. Come and support your club.

73---Dick--WB5SRN

NOVICE NOTES -- Larry--WD5DRB

The current Novice Class, sponsored and conducted by the Brazos Valley Amateur Radio Club got underway Friday night, Sept. 7th. Five people, two woman/three men, ranging in age from 12 years to retirement, come to the first class. With encouragement from other club members at each Friday night meeting, we can perhaps insure five new club members to the BVARC.

For those who think that working DX as a Novice is difficult, a few ideas on how to improve the frequency of DX QSO's. Not original ideas, but worth passing on. Other than getting the ability to copy at 20 wpm, do try to improve your copying This way, when you do make a QSO, you can copy call-signs, words, and speed. QSL instructions which might be unusual to your ear. Listen for fone in CW only It either means DX, a pirate, or a LID who doesn't, segments of the band. Listen for a while and if the call is an the call sign should let you know. open 'CQ de DX' answer it. Be patient because at first a fone CQ may not listen to CW coming back to a CQ. Another hint is to think of what part of the world you would like to work and imagine what part of day a Ham in that part of the world would be sitting infront of his rig, just itching to QSO with a Novice from Tx. The position of your antenna also I remind you, his hour of the day, not ours. is important. If you can adjust it so that its length rather than its end can be parallel to the desired direction ... it helps. Work the upper and lower limits of a band segment if you are confident that your signal will not stay across that end. Fewer Novices work the ends of bands for that reason. Try and work on hours US Hams are less likely to, less competition from your own. Finally, once that DX QSO is made, if you want a QSL, send one of your own, promptly. a buro or directly by an address stated by the other HAM, or by the DX CALLBOCK. Remember, if specific instructions are given to QSL, follow them!!!! You might put that other Ham in an embarrassing position otherwise. Speaking of DX, effective October 1st, the USA quietly will cede the Canal Zone back Currently all HAMS from the US in the Canal Zone use 'KZ5' call sign. On Oct. 1st the 'KZ5' call will be withdrawn from use in the Canal Zone. HAM with that callsign will have to qualify for a Panamanian 'HP1' call. WHO WILL BE THE FIRST CLUB MEMBER TO QSO and QSL with an HP1/xKZ5?????

If you want to work 'KZ5' you have two weekends of KZ5-QSO Parties. Sept.23 and Sept. 30 ZULU (Wade, that means the Party starts on the 22 & 29 Sept. in Texas. Hi). for 24 hours, all bands, all modes. Warm up the rig and dust off that key. On fifteen meters, Novice segment, I have personally worked and QSL'ed with three active KZ5 stations.

Anyone for a convention??? The 1979 ARRL West Gulf Division Convention will be held October 5-6-7 in Houston. The location will be at the Dunfey Houston Hotel (formerly the RED COACH INN) on SW-Frwy. Many interesting activities are to be held. Among which are exhibits, seminars, flea market, FCC exams. I will have advanced registration forms (\$5.00) or you can wait and pay at the door (\$7.00).. at the meeting as well as the complete info sheet which I will keep so that it can be available to others. Door prizes for both advanced and door registration to be awarded. There will be many activities for non-Ham family members. For more info: HOUSTON COM-VENTION 79 / P.O. BOX 79252 / HOUSTON, TX. 77024.

MONDAY NIGHT NET STARTS PROMPTLY AT 9:00 pm local time on the Sugar Land Repeater. Much activity, exchange of ideas as well as practice in emergency communications goes on...We do need to hear more of you checking in. Forget about Monday Night Football for a half hour...check-in on the net and you still will be able to watch the most important part of the game, the last 2 minutes.

QRRR QRRR School is now in session all over the Houston area. Watch out for children during daylight hours. The life you save is very precious. School Zones are also locations to meet our local law enforcement officers...NUF said.

CQ CQ de WA50EN / QRP SOLAR.....That's right, QRP SOLAR. Steve Gottlieb has arranged a number of 'SOLAR CELLS' such that he can run his Argonaut off the sun. Steve is so bright, that's why he is called 'Sunny' HI HI.

Page three is the second page of the ARRL DX Country list. Pages 3 & 4 will be used as fillers in later issues. Save them for DX 100 monitoring.
